Terra Nova Testing

It's finally over - Terra Nova testing week, that is! Any student who missed testing this week will have to complete their Terra Novas the first thing next week.

8th Grade Visit to Financial Park

Our 8th grade visited the Junior Achievement Financial Park facility this week after preparing by learning about personal finance and economics. While there, they were randomly assigned identities with jobs, or not, income, family responsibilities, etc. They were then forced to budget and make purchases according to the income they received. It was an eye opening experience for our students. Thanks to the Rankin family for covering the cost of the program.

Enjoy the weekend.
